DETAILED ACTION

Allowable Subject Matter

Claims 1-4 and 15-20 are allowed.

The following is an examiner's statement of reasons for allowance: The closest art known to the Examiner is listed on the PTO 892 and IDS forms of record. None of the references or combinations thereof anticipate or make obvious, *inter alia*, removing the first silicon oxide film from a part of the silicon substrate using a chemical containing at least an ammonia-hydrogen peroxide solution so that the silicon oxynitride formed at the interface between the part of the silicon substrate and the first silicon oxide film is completely removed; and forming a second silicon oxide film in at least a portion of the part of the silicon substrate from which the first silicon oxide film and the silicon oxynitride have been removed, the second silicon oxide film having a second thickness different from the first thickness. Moreover, the cited prior does not anticipate or make obvious, *inter alia*, subjecting the first silicon oxide film to an atmosphere containing at least an ammonia gas so that silicon oxynitride forms at an interface between the semiconductor substrate and the first silicon oxide film; completely removing the first silicon oxide film and the corresponding silicon oxynitride from a portion of the semiconductor substrate; and forming a second silicon oxide film on the portion of the semiconductor substrate from which the silicon oxide film and the silicon oxynitride have been removed, as required by some of the present claims. As argued by Applicants', the Daniel reference discloses partial removal of the oxynitride layer, and the formation

of a second oxynitride on top. Therefore, the present Claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander G. Ghyka whose telephone number is (571) 272-1669. The examiner can normally be reached on Monday through Thursday during general business hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Lebentritt can be reached on (571) 272-1873. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
